

## 10M Ammonium Acetate Solution (sterilized)

**Cat:** A7032

**Size:** 100mL

**Storage:** RT

**Expiry Date:** 1 year

### Introduction:

Ammonium acetate is an organic compound, but also a white crystal with acetic acid odor. This product is an aqueous solution with a concentration of 10M ammonium acetate, which can be used as a buffer solution for molecular cloning experiments, and can also be used as an analytical reagent and chromatographic analysis reagent. This product has been filtered to remove bacteria and can be used directly.

### Product Data:

English name: Ammonium acetate solution

Concentration: 10M

CAS: 631-61-8

Molecular formula:  $C_2H_7NO_2$

Mw: 77.082

Appearance (character): colourless liquid

### Notes:

1. This product is for scientific use only. Do not use for medicine, clinical diagnosis or treatment, food and cosmetics. Do not store in ordinary residential areas.
2. For your safety and health, please wear a laboratory coat, disposable gloves and a mask.
